[The Supreme Court dismissing the petition against commissioning of Kudankulam Nuclear Power Plant (KKNPP) is a shot in the arm for those engaged in implementation of the project. The Apex Court has said that there is no basis to fear that the radioactive effects of the Plant will be far reaching when commissioned. In an interview with **Anurag Misra, Chief Editor (Employment News), RS Sundar, Project Site Director**, speaks about Project's safety and future plans.]

Q. In its judgment, Supreme Court has said there is no basis to the fear that the Radio Active Effects of the Kudankulam nuclear power plant will be far reaching. How important is the Supreme Court's judgement for those engaged in commissioning the project?

Project Site Director (PSD). Nuclear Power Corporation of India Ltd. (NPCIL) has categorically stated that there will not be any impact due to radiation due to operation of Kudankulam Nuclear Power Plant to the environment and to the public. Also NPCIL has been operating 20 reactors all over India and got a good track record in radiation protection and safety as per International Council for Radiological Protection (ICRP) guidelines.

Q. After the green signal to go ahead given by Supreme Court can you briefly tell how safety and ecological aspects have been taken care of ?

PSD. Safety and ecological aspect of the Nuclear Power Plants are built-in the design stage itself and are implemented during construction, commissioning and operation phases of the plant.

Q. Effect on marine, ecology, impact on agriculture, live-stock, food, impact on flora and fauna, biosphere.

PSD. Detailed studies have been conducted on these subjects by various committees and expert bodies. Environmental Impact Assessment has been carried out by M/s. NEERI and also by M/s. Engineers India Limited, Central Marine Fisheries Research Institute have also conducted studies for KK site.

Environmental Survey Laboratory (ESL) has been set up at Anuvijay Township near KKNPP by Bhabha Atomic Research Centre to collect baseline data and samples of fish, water and air. This data collection by ESL will be continued during plant operation and the effect of operation of Nuclear Power Plant and the environment is continuously monitored. Similar facilities already exist in all Nuclear Power Plant locations. The study covers a large amount of data and has shown no significant increase in the background radiation levels in the various samples collected. Similar practice will be adopted at KKNPP also.

Epidemiological survey has been carried by Tirunelveli Medical College upto 5 Km distance from KKNPP and the report is issued during the initial stage of setting up of the plant. In the recent past Department of Atomic Energy (DAE) environmental studies are being conducted through Board of

Research in Nuclear Science (BRNS) and various educational institutions and Universities are participating in the analysis and also Epidemiological survey has been carried out upto 30 Km radius to have a baseline data prior to power plant operation.

Q. Has Supreme Court given any specific guidelines in addition to those already in existence ?

PSD. The Honourable Supreme Court of India has not given any specific guidelines but has re-emphasised role of regulatory and monitoring agencies and has also given directives with regard to spent nuclear fuel storage and management.

Q. Even after a clear judgment by Supreme Court there are opponents including villagers raising their voices against the project. How will they be taken now on Board to seek their cooperation?

PSD. Through press and media an appeal has been made already to all the neighbourhood people to support the project for the overall progress and prosperity of this region.

NPCIL sincerely believes that once the project is operational it will be amply clear on the part of the villagers due to Nuclear Power operation benefits of safe and reliable electricity generation will be

reaching all.

Q. How many units are ready and when are they likely to be operationalized? How much power will go to Tamil Nadu and which are other states likely to be benefitted by the operationalization and how much these states will gain? What are future plans for expansion of the project in terms of additional units coming up and what is the progress ?

PSD. KKNPP Unit One is in the process of getting its formal approval from the Atomic Energy Regulatory Board (AERB) for its First Approach to Criticality (FAC) which means the nuclear chain fission reaction in a controlled manner. Unit one is in the state of readiness and likely to be operationalised based on the stage wise clearances to be obtained from AERB. As per the Ministry of Power MoU 925 MWe electricity is allocated to Tamil Nadu out of 2000 MWe and other beneficiaries are;

Karnataka	- 442 MWe
Kerala	- 267 MWe
Tamil Nadu	- 925 MWe
Pondicherry	- 66 MWe
Unallocated	- 300 MWe

Future expansion plans are to build additional 4 more units each of 1000 MWe capacity in the presently acquired extent of land at KKNPP.

Chinese Are Coming...

- Bharat Verma

After the Mughals and the British, it now appears to be China's turn to encircle, enslave and make India a surrogate power. Apparently, China firmly believes that two tigers cannot live on the same mountain.

Pacifism may be good for the individual's soul but it is suicidal for a nation's security. With the advent of Buddhism, Tibet, wallowing in pacifism, lost its freedom. Yet South Block refuses to learn. Nehru was too petrified to come to the rescue of a small nation like Tibet. Nepal realized this and as insurance, opened up communication channels with China. The total collapse of India's foreign policy saw Kathmandu exit our sphere of influence and become a vassal state of China. Bhutan will soon follow suit as it watches a helpless India unable to protect itself. Under the weight of its collective incompetence, New Delhi continues to fiddle while Beijing unleashes a creeping invasion. The Chinese grand design envisions India as a surrogate power in Asia led by Beijing. However, the chinks in the Chinese armour are Tibet and Sinkiang. Despite the extraordinary infrastructure developed and the ability to induct multiple military divisions in Tibet, Beijing faces a rebellion, a wound that continues to fester.

The modernization of the Indian armed forces unfortunately is stuck in a groove for the last decade. Help of Western technology and India's belated move to upgrade infrastructure in the North-east are points of major concern for China.

Very few may have noticed that every time India moved closer to the United States, Beijing was upset and it successfully unleashed its lobby in India to counter this. Controlled media in Beijing vehemently criticized when the French Rafale was chosen by India for the Indian Air Force, terming France as 'irresponsible!' Rapid induction of far superior Western technology into the Indian military and denied to the Dragon will upset the balance of power enjoyed by China in Tibet which the former is even today unable to fully integrate with the mainland. This chink in China's armour needs to be exploited.

With Japan, Taiwan and others fortified by a commitment by the US for protection against China's foray in South China Sea disputes, Beijing is likely to make noises but will, for multiple reasons, concentrate militarily on the softest target available, the Indo-Tibet border.

First, Beijing's assessment that the leadership in New Delhi is not strong enough to respond to any developing crisis is accurate. Second, the Chinese who minutely monitor all internal developments within India are aware of the deficiencies in manpower and the equipment within the military. They are witness to the veterans returning their medals in disgust to the President. The political masters have simply not equipped the military with adequate lethality. Third, and possibly the most important consideration is that with the withdrawal of the American forces from Afghanistan, the strategic vacuum

needs to be filled. Therefore, it is intelligent to not only keep India away from Afghanistan but also acquire as much territory as possible without firing a single shot in the Eastern Sector.

By hiding hundreds of incursions into the Indian Territory from the people, the government has encouraged China to intrude 19 km inside in the DBO area enlarging its claims in Eastern Ladakh. China insists on changing the ground rules here as it supports Pakistan's claim on J&K and calls it a disputed territory. This deep intrusion helps it prevent India playing the Gilgit-Baltistan and the POK card where, in connivance with Islamabad, PLA is involved in pacifying the area under the garb of construction activities to the advantage of its proxy.

India will need robust minds and not pacifists, who lose the battle in their minds even before it begins, to work out a counter plan against China and China-Pakistan combine to foil their attempts to illegally occupy our territory with an aim to dismember India. It will require a strong national leadership and induction of military thinking in the foreign office. The propaganda by the pacifists and the Chinese lobby, that since we are militarily not prepared, we need to concede our territory and self-respect, is not true. Nation's have won with much less with the backing of firm resolve and strong generals, both political and military.

Chinese Are ... continued from page 1

Despite the temporary reprieve and face-saving provided by withdrawal from DBO by the Chinese in view of the visit of their Prime Minister, the incursions and land grabbing will continue.

The Indian game plan, therefore, should be based on the following:

- The rebellion in Tibet for independence must be provided with 'moral support'. India also needs to revisit Dalai Lama's government-in-exile, which is quietly supported by the Western Alliance.
- Since China and Pakistan have joined forces against India, we should extend 'moral support' in Gilgit-Baltistan, POK and Balochistan. If Balochistan becomes independent, the Gwadar port will not be available to China causing a huge setback.
- India has trivialized the term 'strategic partnership' by signing it with all and sundry. It is in India's interest to invest in strategic partnerships with Asian countries such as Japan, South Korea, Taiwan and Vietnam as also to create decisive political, military and economic relationship with the USA and the Western Alliance. The balance of power should remain in India's favour.
- It is important to appreciate that China and Pakistan are the only two countries that lay claim on huge chunks of Indian territory. Both are authoritarian regimes that conflict with our liberal values. Despite every effort at appeasement by New Delhi, they will endeavour to weaken our democratic structure.
- Our investment in Afghanistan should not be wasted as the Americans withdraw. Alone and with international support (including Russia), India should extend 'moral support' to the Afghans and disallow the Taliban to take over with the help of Pakistan's ISI.
- Diversify economic interest away from dependence on Chinese goods by creating business-friendly environment for Japan, South Korea and the Western Alliance. The Chinese economy is slowing down and their need for the

vast Indian market is huge. This is an interesting card in our arsenal.

- Sprucing up the military and intelligence capabilities of India on a war-footing is vital since we face two naturally hostile fronts. Initially, quick imports of basic weapon systems are a necessity as it is not possible for a temporary compromise with national security as suggested by many analysts. In the long term, invite technology transfer under joint ventures in private sectors with enhanced FDI of 49 per cent to create modern defence production facilities in the country.
- For a long time Indians and Chinese have, on the ground, been in possession of areas along LAC and China did not pose major objections. Cleverly after building the infrastructure and the military wherewithal, it started flexing its muscle by enlarging its claim in Eastern Ladakh by the 19 km incursion in the DBO sector. The claim by the Chinese lobby in India that they can induct 30 divisions against us makes them look like a 'superman'. The truth is that they need acclimatization of these troops for high altitude, which is time consuming and nullifies the element of surprise. On the other hand, India can build troop levels faster as it already has a functional Corps headquarters in place.
- At the local level, incursions by Chinese troops must be stopped immediately and under the prevailing confusion of demarcation of LAC, our military should intervene and create similar incursions on the Chinese side. This should be the Standard Operating Procedure.

Otherwise New Delhi will lose the plot, territory and enormous self respect.

Also encode your booklet series (A, B, C or D, as the case may be), subject code and roll number in the circles provided for the purpose in the answer sheet. The guidelines for writing the above particulars and for encoding the above particulars are given in Annexure. In case the booklet series is not printed on the test booklet or answer sheet is un-numbered, please report immediately to the Invigilator and get the test booklet/answer sheet replaced.

(ii) Candidates should note that any omission/mistake/discrepancy in encoding/filling of details in the OMR answer sheet, especially with regard to Roll Number and Test Booklet Series Code, will render the answer sheet liable for rejection.

Since the answer sheets will be evaluated on computerised machines, candidates should exercise due care in handling and filling up the answer sheets. **They should use black ball pen only to darken the circles. For writing in boxes also, they should use black ball pen. Since the entries made by the candidates by darkening the circles will be taken into account while evaluating the answer sheets on computerised machines, they should make these entries very carefully and accurately.**

10. Method of marking answers

In the "OBJECTIVE TYPE" examination, you do not write the answers. For each question (hereinafter referred to as "Item") several suggested answers (hereinafter referred to as "Responses") are given. You have to choose one response to each item.

The question paper will be in the Form of TEST BOOKLET. The booklet will contain item bearing numbers 1, 2, 3 etc. Under each item, Responses marked (a), (b), (c), (d) will be given. Your task will be to choose the correct response. If you think there is more than one correct response, then choose what you consider the best response.

In any case, for each item you are to select only one response. If you select more than one response, your response will be considered wrong.

In the Answer Sheet, Serial Nos. from 1 to 160 are printed. Against each number, there are circles marked (a), (b), (c) and (d). After you have read each item in the Test Booklet and decided which one of the given responses is correct or the best, **you have to mark your response by completely blackening with black ball pen to indicate your response.**

For example, if the correct answer to item 1 is (b), then the circle containing the letter (b) is to be completely blackened with black ball pen as shown below :-

Example : (a) ● (c) (d)

11. Candidates must write the papers in their own hand. In no circumstances will they be allowed the help of a scribe.

12. Entries in Scannable Attendance List

Candidates are required to fill in the relevant particulars with **black ball pen only** against their columns in the Scannable Attendance List, as given below:-

i) Blacken the circle [P] under the column [Present/Absent]

ii) Blacken the relevant circle for Test Booklet Series

iii) Write Test Booklet Serial No.

(iv) Write the Answer Sheet Serial No. and also blacken the corresponding circles below.

v) Append signature in the relevant column

13. Please read and abide by the instructions on the cover of Test Booklet. If any candidate indulges in disorderly or improper conduct, he/she will render himself/herself liable for disciplinary action and/or imposition of a penalty as the Commission may deem fit.

ANNEXURE

How to fill in the Answer Sheet of objective-type tests in the Examination Hall

Please follow these instructions very carefully. You may note that since the answer sheets are to be evaluated on machine, any violation of these instructions may result in reduction of your score for which you would yourself be responsible.

Before you mark your responses on the Answer Sheet, you will have to fill in various particulars in it.

As soon as the candidates receives the Answer Sheet, he/she should check that it is numbered at the bottom. If it is found un-numbered he/she should at once get it replaced by a numbered one.

You will see from the Answer Sheet that you will have to fill in the top line, which reads thus :

केन्द्र	विषय	विषय कोड		अनुक्रमांक	
Centre	Subject	S. Code		Roll Number	

If you are, say, appearing for the examination in Delhi Centre for the English Paper* and your Roll No. is 081276 and your test booklet series is 'A', you should fill in thus, using black ball pen.

केन्द्र	विषय	विषय कोड	0 1	अनुक्रमांक	0 8 1 2 7 6
Centre Delhi	Subject English (A)	S. Code		Roll Number	

You should write in black ball pen the name of the centre and subject in English or Hindi.

The test Booklet Series is indicated by Alphabets A, B, C or D at the top right hand corner of the Booklet.

Write your Roll Numbers exactly as it is in your Admission Certificate with black ball pen in the boxes provided for this purpose. Do not omit any zero(s) which may be there.

The next step is to find out the appropriate subject code from the Time Table. Now encode the Test Booklet Series, Subject Code and the Roll Number in the circles provided for this purpose. Do the encoding with black ball pen. The name of the Centre need not be encoded.

Writing and encoding of Test Booklet Series is to be done after receiving the Test Booklet and confirming the Booklet Series from the same.

For English paper of 'A' Test Booklet Series you have to encode the subject code, which is 01. Do it thus.

पुस्तिका क्रम (ए)	विषय	0	1
Booklet Series (A)	Subject		
●		●	○
Ⓐ		①	●
Ⓑ		②	②
Ⓒ		③	③
Ⓓ		④	④
		⑤	⑤
		⑥	⑥
		⑦	⑦
		⑧	⑧
		⑨	⑨

All that is required is to blacken completely the circle marked 'A' below the Booklet Series and below the subject code blacken completely the Circles for "0" (in the first vertical column) and "1" (in the second vertical column). You should then encode the Roll No. 081276. Do it thus similarly :

Important : Please ensure that you have carefully encoded your subject, Test Booklet series and Roll Number.

Incredible North East!

Coffee Cultivation in North East

– Kalpana Goswami

Coffee the brewed beverage with a distinct aroma and flavor, in the Northeast could be going the organic way. This if it happens, would give a big boost to coffee which has not got that much attention like tea. The parliamentary standing committee on commerce has asked the department of commerce to take all steps to market Northeast's coffee as exotic beverage to help them command a premium price. Organic coffee is that coffee produced by such management practices which help to conserve or enhance soil structure, resilience and fertility by applying cultivation practices that use only non-synthetic nutrients and plant protection methods. Organic coffee is being produced by about 40 countries in the world with major production share coming from Peru, Ethiopia and Mexico. Organic coffee is chiefly consumed in the Europe, US and Japan. The report that was tabled in both the Houses of Parliament has asked the commerce department to take all steps to obtain organic certification for coffee of the region and help establish linkage with the exporters so that coffee could be sold at a premium helping the growers and workers alike. It has asked the department to seize the opportunity offered by coffee cultivation in the Northeast where the cultivation is organic by default. These small and tribal coffee growers do not use chemical fertilizers and plant protection chemicals due to their poor economic status and due to their belief in natural farming. Consequently the yields are low and

are only at subsistence levels. Thus, there exists a good scope for converting these small and tribal holdings into certified organic without much change in the existing cultivation practices. The production has been rising from 80 tonnes in 2008-09 and is expected to touch 220 tonnes in 2012-13. The allocation for Northeast in the 11th plan was Rs 20 crore and authorities have requested for a substantial increase in the 12th plan. Coffee in the region is grown mainly in Mizoram, Jampui hills in Tripura, Dima Hasao in Assam and Garo hills in Meghalaya. The total planted area of coffee in Northeast is 5,545.63 hectares while the bearing area is 739.02 hectares. The number of small holdings is 7,083. Coffee Board officials in Northeast say the objective behind starting coffee cultivation in the region is to promote coffee cultivation and suitable commercial and eco-friendly activities among the tribal sector. It will also wean away the local inhabitants from the hazardous practice of jhum/shifting cultivation and settle them in an economic activity to improve their socio-economic status. "Nevertheless, the committee feels that the pace of expansion of coffee coverage in the Northeast should have been faster for two strong reasons. First, coffee production is a source of gainful employment in remote and rural areas and second, the country's necessity to augment coffee production," the report said. The necessity to increase production has

arisen because of non-realisation of targets. The committee expressed its disappointment that during Eleventh Plan, the Coffee Board revised the original target downward to the tune of 65,000 tonnes and it still fell short by 62,100 tonnes of the revised target. Officials say there is not much awareness about coffee in the Northeast which has led to poor productivity level of coffee (83 kg/hectare) is quite low in the region as compared to traditional coffee-growing regions. The report recommended that the expansion in coffee-growing areas in the Northeast must be carried on scientific cultivation basis so that higher productivity could be attained. The market support scheme in the Northeast of the Coffee Board, which is only for the region, has helped the coffee sector substantially. "Had there been no market support scheme, the sector would have got no place in the region. The scheme has helped the coffee growers to get the returns for their produce without any hardship" the official said. The scheme comprises procurement of coffee, transportation of coffee to collection centre, release of initial payment, curing, packing and storage, despatch to Bangalore, auction and release of funds payment. The board provided Rs 12 per kg as transportation subsidy to growers, which is likely to increase in the next plan, as the costs have gone up. The subsidy helps in transporting the coffee from the farms to the nearest office and then to the

curing work factory where it is processed and then to the auctions in Bangalore. Money is disbursed to the accounts of the growers online. The working group on the plantations sector, constituted by the Planning Commission for the 12th plan has stated that support will also be extended towards the activities like quality improvement, marketing, capacity building among the tribal growers in the region. The Quality Awareness programme conducted in Lunglei Zone in Mizoram has resulted in quality upgrade programme for infrastructure development as there has been a considerable increase in the percentage of growers pooling parchment coffee. "In the past, coffee processed by growers of the region suffered greatly from poor quality due to improper processing, drying and handling. As a result, the coffees fetched low prices in the auctions" a board official said. Coffee from the Northeast is fetching good prices at the Bangalore auctions conducted by the Indian Coffee Trade Association. The Arabica cherry coffee fetched a price of Rs 162 per kg while the Arabica parchment fetched a price of Rs 200 per kg. "We have received good feedback from the Bangalore auctions and they have told us that the quality is good and are receiving good prices," a official said. **[The author is Fine Arts teacher in Guwhati. Skill Development Initiative Scheme (SDIS)

– Dr. Nupur Kashyap

Due to government policy of encouraging higher studies, we can see a lot many engineering and medical colleges emerging in the country resulting in the production of engineers, administrators, doctors etc on a large scale. But not much has been done regarding the skill improvement of lower stratum of studies at vocational level, apart from establishing around 39000 Industrial Training Institutes overall India. Against the availability of 12.8 million jobs, only 3.1 million vocational training seats (as in 2007) are available in the country. Thus, India has set a target of providing skill to 500 million people by 2022. One million persons would be trained or their existing skills tested and certified over a period of five years and one million thereafter every year. At present India has the benefit of highest percentage of youth in the age group of 25-40 yrs. It means we can harvest the youth advantage if proper attention is given to them. Also, out of the total workforce present in the country, the unorganized sector constitutes 97 % of the workforce. It means only 3% of the total workforce is getting the benefits of various government schemes. The main aim of the Ministry of Labour and Employment is to address these people and Skill Development Initiative Scheme (SDIS) is a big step in the direction to cater the needs of these unprivileged workers. It's basically the scheme for early drop-outs, unemployed and previously child labour and their families.

It is the dream project of Indian Government that aims for developing the skills of workers in different sectors. It's a tripartite venture of central government, state government and industrial community. This scheme is the result of extensive research and work by the state government, experts of the related fields and academic personnel in developing the framework of scheme, rules & regulations, course curricula, learning material and assessments standards. At the national level, the Directorate General of Employment and Training (DGE&T), Ministry of Labour & Employment (MoLE), is the nodal body for formulating policies, laying down norms, standards, conducting trade test and certification of vocational training under the aegis of training advisory body National Council of Vocational Training (NCVT). The vocational training system under the Ministry of Labour and Employment is one of the most comprehensive systems in the country. There are two aspects of this magnificent scheme - one is to provide vocational training to people through different MES (Modular Employable Skills) courses to hone their skills and the other is to register institutions as VTP (Vocational Training Provider) for giving training.

MES Scheme

The quality of labour force defines the industrial or commercial productivity of a nation which in turn governs economic growth of a country. This growth is either in the form of export or in the form of revenue that the labourers bring to their motherland while working in foreign countries. A large part of the total G.D.P. generated by Bangladesh and Sri Lanka is sent by their natives working in other countries. "Germany needs young skilled people in large number to boost its economy". These are the words of German ambassador Steiner. He further added that the secret of Germany's economy is that the skilled manpower that comprises electricians, plumbers, carpenters etc. has a high social respect and also invited Indian skilled manpower to his country. It clearly denotes one thing that even if the employment generation capacity of a country is low, it can raise revenue just by having large number of labour force and if this force constitutes of the youth that will be an added favour. Presently India has a huge percentage of youth force. But the problem is that most of them are unskilled. As a result, the unemployment rate is much higher among the youth as compared to the total labour market. To tap this unemployed young energy, the idea of MES erupted which stands for "Modular Employable Skills". In MES, the training is delivered by competent and qualified trainers in well-resourced institutions having fully equipped labs and enhances the capacity of a person to perform his duties in a better way. It also ensures the reliable assessment based on national standards.

Salient features of MES scheme

- The time period for training is not counted by the number of days; instead the system is based on the number of hours to ensure flexibility in training.
- The courses are for short term duration (90 hours to 180 hours) so that the trainee is able to reap the advantages of training at the earliest. For example, in sector "Film Production", one can start with module "Clap Person" for which the training period is just 40 days. It means, for daily 2 hours training, one can be trained in just 20 days.
- The duration of modules is less, thus, enables a person to carry out his regular work/ profession concurrent to the training.
- There is no fixed time for training sessions- i.e. training batches can be run according to the convenience of the batch. The training schedule is so flexible that a person can attend the class part time, full time or on week-ends.
- The place of training could be onsite or offsite.
- The assessment of trainees is done by a separate assessing body other than the teaching faculty of the institute. They may be industry organizations such as FICCI, CII, etc. which do not involve in training delivery, to ensure an impartial assessment.
- The minimum age limit for persons to take part in the scheme is 14 years with no upper age limit.
- The persons, who are already having expertise in some field, can directly approach for testing & certification. In this case, the person need not to take any training, instead he has to apply for certification only.
- Different levels of programmes (foundation, skill formation and upgradation) are devised to meet varying demand in industry and commerce.
- One of the main problems among the people of poor families is that their children left studies at a very early age. This restricts them taking admission in other courses later in life when they want to go for further training. Even in ITIs (Industrial Training Institute) the admissions are given to students which have passed VIIIth standard or above. The minimum qualification for some MES courses

is just the completion of fifth standard.

- The certification is done from the National Council for Vocational Training (NCVT) that is nationally and internationally recognized in the field of work.
- The modular character of this scheme helps person acquire proper skills in a specific part of a field. Thus, step by step, course by course, he accumulates reasonable qualification after a period of time.
- It's not like that the courses are tailored only for the lowly educated persons. For graduates, there are courses like Lyric Writer (60 hours), Dialogue Writer (60 hours), Film Subtitler (100 hours), Creativity Assistant (60 hours) etc.
- There is horizontal and vertical freedom for the courses that can be selected. For example, for the sector "Fabrication", the course matrix indicating vertical and horizontal can be explained as follows; In this sector, one can start with any of the three courses FAB-101, FAB-102 or FAB-103, all at the same level-1 and then could opt for the courses at the same level-1 or go for the higher level courses at level-2.

Fee: At the time of admission, the trainee needs to pay VTP the fee as given below,

1. Rs 500 per module (for modules having duration upto 90 hours).
2. Rs1000 per module (for modules having duration from 91 hours to 180 hours).
3. Rs1500 per module (for modules having duration from 181 hours to 270 hours).
4. Rs 2000 per module (for modules having duration more than 270 hours).

Persons belonging to SC/ST categories, persons with disabilities and women candidates are given a relaxation of 25% in fee. The assessment fee of Rs.500/- (for an engineering course) and 800/- (for non-engineering course) is charged. But as the trainee passes the course successfully (after being tested and certified), full amount is refunded to the candidate. It means, the training is given virtually free of cost.

Vocational Training Provider (VTP)

A VTP is the body that provides training. VTPs are registered by the respective States/UTs in the sectors/courses for which training in frastructure is available with it, by making an application to State Directors dealing with vocational training. The eligible vocational training providers could be;

1. Educational /training institutes.
2. Organizations/ institutes set up by the government (Central government, State government or Union Territory administrations)
3. Companies and firms.
4. Registered societies, trusts engaged in providing training.

Benefits of being a VTP

1. Registration can be done anytime round the year.
2. A VTP doesn't have to pass through long exhaustive procedure for getting it registered with state Directorate dealing with vocational training. Online registration is available on a click of mouse. On being registered online, a temporary registration number is allotted to the VTP immediately, on the basis of which admissions can be made in various courses the respective VTP has opted for. Later, Assessment Batch Number (ABN) is allotted to VTPs.
3. The VTP is free to opt as many as MES sectors/courses (for giving training) as it likes. There are a total of 1413 courses in 72 Sectors and the number is increasing day by day as newer fields are being added to this list.
4. No new or extra machines are required for starting the course, if the VTP is already providing training in the same or related trades/sectors. One can use the infrastructure already existing with it. For example,

if a person is running computer training courses, then he can opt for courses like, "Computer Fundamentals, MS Office & Internet", "Computer Networking", "Web Designing", etc. If one is running an automotive repairing shop, there are about eighteen courses in the sector "Automotive Repair" that he can opt for, like- "Repair and Overhauling of Two Wheelers (moped)", "Repair and Overhauling of Two Wheelers (motorcycle)", "Repair of Auto Conditioning System", etc. Similarly for owners of beauty parlours, there are about nine courses viz. "Hair Colourist", "Hair Cutting Specialist", "Make-Up Artist", "Facial Therapist" etc. For persons from agricultural side, "Cultivation of Potatoes", "Apiary", "Cultivation of Vegetables", "Gardeners", "Seed Production", "Preservation of Fruits & Vegetables" etc are some of the courses to give training in. Even for the kitchen makers, restaurant owners, there is a long list of courses-craftsman- "Indian Snacks", "Bengali Sweets", "Ghee Based Sweets", "Milk & Khoya Sweets", "Namkeen & Savouries", "Indian Syrups & Thandai", "South Indian Foods", "Indian Chaat", "Indian Deserts", "Chinese Food" etc.

5. As no new set-ups are required, it's very cost effective for the training providers.
6. There is no need to hire separate faculty for training purpose. VTP can take the services of already employed staff of the institution.
7. No exhaustive search for instructors is to be made as retired faculty could be employed for the training.
8. Training could be provided by VTP from the government sector, private sector or industrial establishments.
9. VTPs are reimbursed training cost at the rate of rupees fifteen per hour per passed out trainee by State/UT.
10. Apart from existing sectors, one can propose any new sector provided the suitability and demand be justified.

Now a days, most of the families have both the partners working and they are bound to leave the house at the stake of domestic workers. This situation has increased the demand of workers exponentially. Everybody wants a trained *Bail domestic* worker because they don't have the time to train them. Similarly, the apparel sector is one of the most important burgeoning industries, creating vast space for trade and employment generation. The apparel market is developing because the demand for finished products is on rise. Large number of skilled workers are required for fine finishing of the garments. These are just two examples, the demand in different fields is immense. The industries, companies, employers and placement agencies prefer to select the certified workers. So, either earn as VTP or gain skills through MES, the benefits will always be there. All the MES courses are available on the website www.dget.gov.in/mes and the list of VTP's (alongwith their opted sectors) can be seen on the website www.sdi.gov.in.
